Dear David

**RE: Freedom of Information Act request – Big Conversation – Raising the Eligibility Criteria**

From the information provided by the Big Conversation it is not possible for us to make a considered response. I am therefore submitting an FOI for the following information:

1. the impact assessment carried out by NCC in making this proposal
2. the numbers of people affected and budgets – both current and projections for future service users – with a breakdown by category – low, moderate, moderate (prevention), substantial, critical
3. a breakdown by age and impairment for each category

I look forward to receiving a response in the next 21 days or sooner if possible.

Yours sincerely
